Mr. Nelson

GACarver, Jr.

Attached is a draft cable by Lee Cole of ISA
25X1 which I am told has already [redacted]
Saigon. Also attached is one of the two refer-
ences (the other being a JCS document we have
not yet sprung). Cole would like my comments
by COB Thursday, 31 October. He is particularly
interested in whether we consider this is a valid
approach to the problem and whether we concur
with the implicit assumptions and/or judgments
contained in this document. I have some strong
personal views but will not prejudice your
reading by reciting them here. I would appre-
ciate your reactions by phone or informal memo
sent in time for me to digest them and meet
Cole's deadline.
